5 TEACHING

5.1 General

In this module three lectures are given every day plus a tutorial/assessment every morning and/or afternoon

5.1.1 Attendance of lectures, preparation, assignments and assessments

Attendance of classes is **compulsory**. Students who do not attend may receive an “incomplete” for the course. Lecturers will take notice of students’ class attendance.

Students should come to lectures **prepared**. The prescribed parts indicated in the program below should be followed. A class assessment can be given at any time and the mark will form part your final results. **Therefore this booklet must be consulted every day so that a student can know exactly what will be expected of him/her in every lecture.**

The lectures will partly be in a question-and-answer format, partly in the form of formal lectures and partly in a discussion format. Participation in the classes by students is taken into account in the determination of final marks.

5.1.2 Student feedback and complaints

Students will have ample opportunity to assess lecturers anonymously. Please feel welcome to discuss any problem with the lecturer. No discrimination will take place when a student complains about something.

Should a problem not be rectified after discussing it with the lecturer, the class representative can take the problem up with the Head of Department or the Dean of the Faculty of Arts if the lecturer is the Head of the Department.
